

Lecture 29

April 10, 2015

1. Try 7.3.30. Note t -critical value for two sides is $t_{\alpha/2}$.
2. Try 7.3.35.
3. Try 7.3.37. Hint: just locate the sample mean and sample standard deviation from the output of Minitab. I will show how to use Minitab to obtain this output in the future.
