

Lecture 31

April 15, 2015

1. Try 8.1.15 parts (a), (b).
2. 8.1.17 part (a)
3. 8.1.21. Hint: “check whether it is the case” means check if it is different.
4. 8.2.23. Hint: Do you see that $H_0 : \mu = 360$ and $H_a : \mu > 360$ (try to look at the alternative hypothesis first, what does “contradict” mean?).
5. 8.2.29 part (a)
